

DIE JUNGEN  
UNTERNEHMER

[www.junge-unternehmer.eu](http://www.junge-unternehmer.eu)

In Germany, **WE**,  
**DIE JUNGEN UNTERNEHMER**,  
are the only association for  
young entrepreneurs of  
family- or owner-managed  
companies. We are facing  
the political challenges of our  
times and speak for young  
entrepreneurs.

**WE** are committed to a social market economy. We  
want more competition, autonomy and generational equity.  
Our activities and campaigns always grab the headlines.  
It is our objective to create optimum conditions for young  
entrepreneurs. In addition, we are committed to promoting  
a better public image of the entrepreneur.

**WE** are the voice of  
young entrepreneurship in  
Germany. As the politico-  
economic interest group  
of young entrepreneurs of  
owner-managed companies  
we advocate an optimum  
framework for entrepreneur-  
ial activities – a framework  
for more than 180,000 family  
entrepreneurs in Germany.  
Over all sectors of industry  
we employ around 8 million  
people and generate an annual  
turnover of 1,700 billion  
Euros.

**WE** support each other  
and promote entrepreneurial  
exchanges between our mem-  
bers. Regional and national  
events as well as the Intranet  
are an ideal platform to react  
in a swift and target-oriented  
manner.
